S. Patton highlighted the following outcomes indicating a dramatic turnaround at the school:

- RICAS Growth: Students earned an SGP of 61 in ELA and an SGP of 60 in Math, putting us 3rd and 7th in the state respectively for student growth.
- Student Culture: Chronic absenteeism dropped from 36.4% to 19.8% and the number of students suspended was significantly reduced 29.0% to 7.2%.
- Staff Culture: 91% of staff members returned and staff had the highest satisfaction and optimism in the network.

B. Smiley asked for clarification that the suspension policy has not changed since last year, and S. Patton confirmed it has not changed.

C. Heng asked for more information about the levers that helped to create this shift at the school, and members of the XLRI team provided context about leadership and culture changes that contributed to the successful turnaround.

P. Santiago, a member of the ELL advisory council, noted that challenges with students exiting ELL status and meeting ACCESS benchmarks is a statewide challenge.

F. Rojas asked a clarifying question regarding how we access incoming 5th grader historical data, which F. Reyes answered.

In the future we hope to incorporate all components of the RIDE evaluation rubric into the Teacher Observation Rubric, so that we can eventually transition to using only one tool.

J. Greenthal asked about comparability between the Excel MA and Excel RI curricula, which S. Patton clarified. They are very similar, given the standards and assessments are so similar between the states.
